* Nominal Pressure. The nominal in-vitro device specifications do not take into account any lesion resistance.
** Rated Burst Pressure. Do not exceed RBP.

Over the Wire (OTW)

Rapid Exchange (Rx)

Pioneers in life-changing technologies

1.0 mm - 4.0 mm Semi-compliant Balloon for Vascular Treatment

Cross with Confidence

Specifically engineered for crossing difficult lesions and tracking tortuous anatomy.

P-TECH Shaft for Optimal Pushability and Kink Resistance

The P-TECH Shaft is uniquely constructed with a small catheter profile that is kink resistant and facilitates excellent deliverability.

Sub-zero Tip Technology for Smooth Lesion Entry

The well balanced sub-zero tapered tip has an ultra low profile and provides smooth entry through the tightest lesions.

Smallest Crossing Profile in the US Market

XR Balloon Engineered for Crossability

The proprietary "XR balloon" facilitates best-in-class crossability and recrossability without compromising durability and robustness.
